GraphiStone surfaces bring fresh ideas, new heights of luxury and timeless elegance to the bathroom at an affordable price.

GraphiStone offers a range of stylish quartz surfaces which are ideal for a variety of kitchen applications including splashbacks, feature wall panels and kitchen islands.

Our comprehensive range of colours, patterns and designs combined with the durability and low maintenance characteristics of our surfaces make GraphiStone the perfect match for your new kitchen.

Create a truly unique look throughout your home with GraphiStone a surface are ideal for feature walls, furniture, entertainment units and BBQ areas adding a touch of style and sophistication, but helps to create a cohesive space within your home.

GraphiStone is highly regarded by the design and building industry for our superior quality, service & support, GraphiStone products are widely used in commercial applications, offering colour innovation, product reliability & technical support.

**Durability:** GraphiStone is ideal for areas with a lot of foot traffic because it can withstand the constant use. The durability of GraphiStone is evident by looking at intact marble walls that have been found in ancient ruins. These walls can quite literally withstand the test of time. Wear and tear is not a concern with GraphiStone.

**Cleanliness:** Tiles hold in allergens and show stains easily. Marble is easier to clean and does not have the ability to hold in allergens. This means that the splashback will look cleaner and will not contribute to respiratory problems that any occupants of a home may have. GraphiStone is resistant to both fungus and mould, and cleaning is as easy as running a clean rag over the surface of the wall.

**Increased Home Value:** The elegant, high-class look of GraphiStone is not just nice to look at. Marble is popular, and potential buyers are often looking for homes that have all the extras before they move in. Homeowners who install marble splashbacks before putting their home up for sale are likely to have a pleasant surprise when a real estate agent adds to the home price.

**Versatility:** GraphiStone is used in bathrooms, kitchens, living rooms, bedrooms and any other room that you can imagine. There are no design limits when it comes to GraphiStone. Use your imagination to create a stylish room with polished marble.
